

Dalice Travillion

GRAPHIC DESIGN

Who I am:

Hello! I am passionate about branding & identity, and tend to get excited about combining various print and digital elements; creating brand/product cohesiveness with flyers, social media, brochures, websites—you name it! I also have experience with photo retouching and I dabble in basic web code and video editing. My process typically starts with research followed by either hand-drawn sketches or a quick digital composition to help “visually test” an idea before moving onto one or a few of my best friends: Adobe Photoshop, Illustrator, and InDesign. When not creating, you can rarely catch me inside of a blanket fort sipping hot tea and catching up on a new favorite novel.
